BUILDING A FUTURE IN YUBA COUNTY

**Jared Ware
Builtware Fabrications**
Showcasing current industrial shop to CTE
instructors from MJUSD.

American Wood Fibers

Since 1966, AWF has been family owned and operated, building a reputation as the industry leader in wood shavings, wood flour, and pet bedding products.

In 2023, AWF was awarded \$1.7 MILLION by CAL FIRE to install a “wood flour” system that will increase consumption of mill residuals, ultimately returning bio-material to the forest floor. This major investment will expand AWF Olivehurst location, west of the Yuba County Airport.

Benzeen Auto

Upsizing from 2 acres in Rancho Cordova to 45 acres in Yuba County, off Hwy 65, Benzeen Auto has risen to the County’s top 50 sales tax generating businesses.

While this dismantler’s primary customers remain mechanic and body shops, their business-to-consumer sales extend nationwide for high-demand auto parts.

After relocating numerous company executives and hiring 50+ locals, Benzeen Auto has solidified their company HQ in Yuba County.

Builtware Fabrications

Jared and Aubree Ware started their business in a nearby County, and when red-tape choked their expansion, they looked toward Yuba County.

10 years later, their 8,000 sq. ft. off Skyway Dr. is at max capacity. Poised for expansion, Builtware Fabrications worked hand-in-hand with Yuba County to find an ideal property, subdivide the right acreage, and are developing plans for a new 32,000 sq. ft. long-term business location.
